

Hello, my name is Veronica, and I'm from the United States. And my question today is have you ever had a makeover?

I have never _____ (had / have) a makeover, but now that I'm _____ (answer / answering) this question, I feel like that would be a lot of fun. I've actually had this _____ (some / same) hairstyle for several years now, so I think a makeover would _____ (actually / actual) be really cool.

But even _____ (though / thought) I have not had a makeover, I've seen plenty of TV shows _____ (where / why) they do makeovers on people, and I think it is _____ (fascinating / fascinated), especially when you see a person who has made big _____ (change / changes) in their life. For example, if someone lost a lot of weight and then _____ (sudden / suddenly) they came in and gave them a makeover with a _____ (new / now) hairstyle and perhaps new makeup and teach them how to _____ (where / wear) brand new clothes now that their body is _____ (completely / complete) different. I love seeing the _____ (expression / impression) on the person's face after their makeover, because they're so _____ (happy / happily), and the way that they feel on the inside _____ (matching / matches) how they look on the outside now, both absolutely _____ (beautifully / beautiful). So even though I've never _____ (personal / personally) had a makeover, I think that they're really _____ (incredibly / incredible).
